GET INSTANT QUOTES

Visit your local branch today to get quotes in an instant on a full range of windows and doors.

**READY TO COLLECT IN-BRANCH
IN JUST 7-14 WORKING DAYS**

IT'S A NO BRAINER!

SAVE TIME & MONEY

When you're buying Eurocell roofline products from your local branch, make sure you pick up your windows too! Whether you're looking for traditional casement windows, fully-engineered vertical sliding sash windows or our advanced tilt and turn windows, they're all in one place – saving you time and money!

MARKET LEADING WINDOWS – IN-BRANCH NOW!

You'll find outstanding performance right across the range. With a choice of styles, colours and finishes to suit building, our innovative windows boast A++ energy ratings and U-values as low as 0.8. In other words, they exceed the latest energy-efficiency standards.

FULLY GUARANTEED

Windows bought from your local branch are covered by a 10 year guarantee.

**FIND YOUR LOCAL BRANCH AT
eurocell.co.uk/branchfinder**

modus®

A breakthrough in design, engineering & performance

At a glance:

- ✓ Clean and contemporary looks with slimmer sight lines – different to traditional PVC-U windows.
- ✓ Advanced engineering technology – achieves the new A++ Window Energy Rating and a 0.7 U-value.
- ✓ Sustainability as standard – manufactured using 50% recycled material.
- ✓ Cost-effective alternative to aluminium.

logik **S**TM

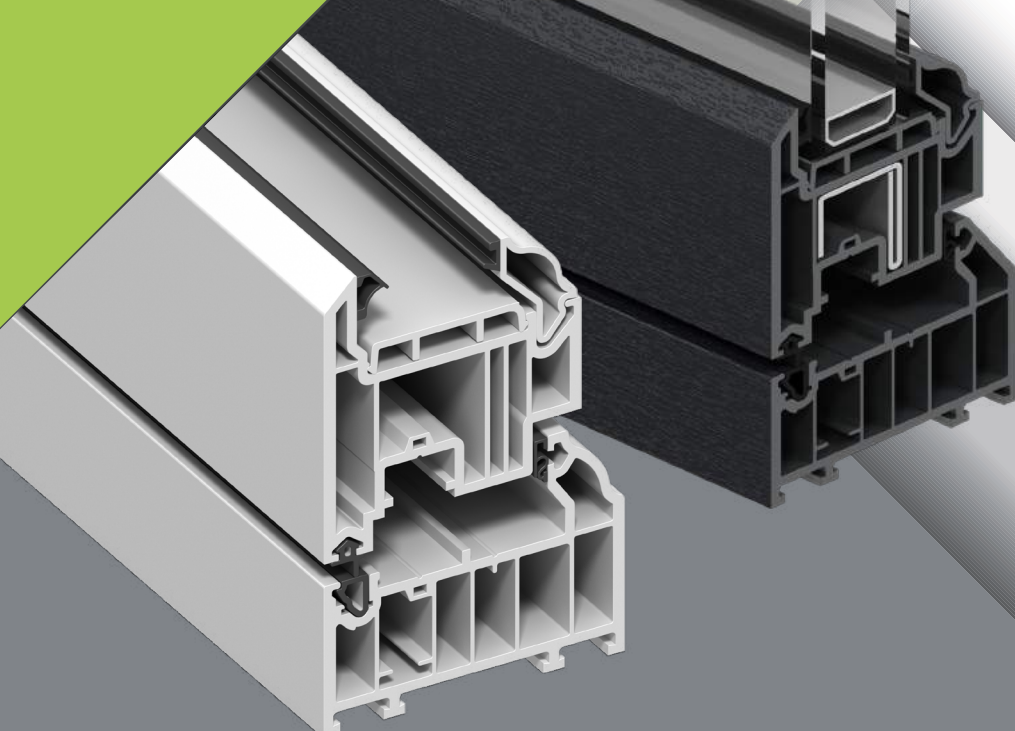

Flush Sash Windows

LEVEL BEST FOR STYLE & PERFORMANCE

The Logik range just got one better with the **NEW** Logik S Flush Sash. Sleek and streamlined enough to suit any ultra-modern new build project – or to bring older properties bang up to date – and as easy fitting, energy efficient and secure as the rest of the Logik range.

The Flush Sash also features a grey substrate option that means no white core is visible, even with the window open. A genuine alternative to the premium look of aluminium without the price tag.

You could say it's taken
Logik quality, efficiency and
performance to a
whole new level.

Compatible with full Logik range

Wide range of colour and style options

Superb energy efficiency performance

U-values as low as 0.8

Fast, accurate fabrication & installation

Tested to BS 6375 & PAS24

Market-leading sustainability

10-year guarantee for peace of mind

A perfect addition to the range

And like the rest of the Logik range, an extensive choice of woodgrain foils gives Logik S Flush Sash a real wood look that stands up to all but the closest of inspections. Or in grey delivers an architectural design feel. Its the perfect replacement window for adding contemporary kerb appeal to older homes or retaining character in older properties.

LOGIK WINDOWS

The logo for Logik Windows, featuring the word "logik" in a lowercase, sans-serif font with a registered trademark symbol (®) to its upper right. The logo is white and set against a solid green rectangular background.A photograph of a modern, two-story house with a mix of white and light wood cladding. The house features several windows with dark frames, including a large bay window on the ground floor and a smaller window on the upper floor. The sky is overcast.

A GREY REVOLUTION - LOGIK S

The outstanding feature that makes Logik so special, though, is its grey substrate option.

With a through-colour grey frame instead of just a surface foil, there's no sign of a white PVC-U core, even when you open the window.

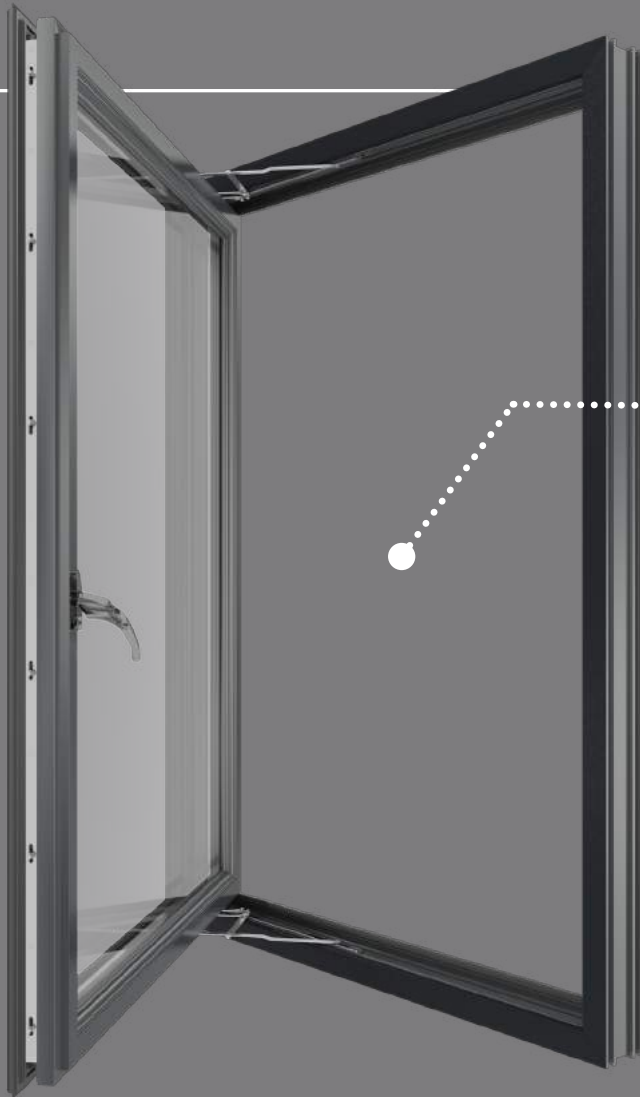

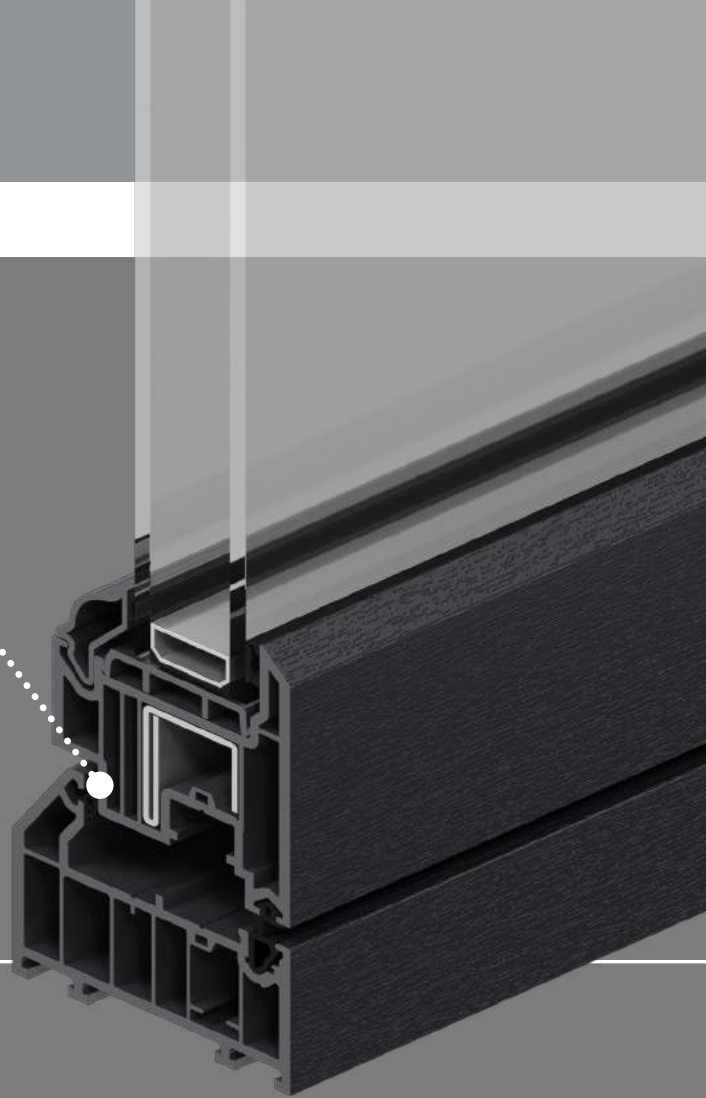

It may seem like a small detail, but the all-grey look is a big thing with homeowners right now and many people are more than ready to pay a premium for it in PVC-U rather than choose the much more expensive aluminium option.

So make sure you're ready to supply everything they're looking for with new Logik S Flush Sash to complement the Logik chamfered and Ovolo options.

GREY SUBSTRATE OPTION FOR THE CONSISTENT LOOK

Also available on Aspect panoramic doors and the new Syncro sliding patio door at launch.

WHAT IS A CAVITY CLOSER?

cavity closer

A cavity closer is an energy-efficient aperture former which enables brick courses to be completed and creates an Air-tight receiver for windows and doors

BENEFITS

- Provides a damp proof course
- Simplifies brickwork - no return bricks needed
- Provides thermal break
- Stops cold bridging which can cause condensation to form inside the opening damaging internal decoration and plasterwork
- Improves heat loss at the window junction, reducing CO₂ emissions
- Meets Accredited Construction Details regulation designed to improve the heat loss at junctions
- Meets needs of Part L of the Building Regulations

Cavalok products are made from **100% recycled PVC-U**

NEED MORE INFORMATION?

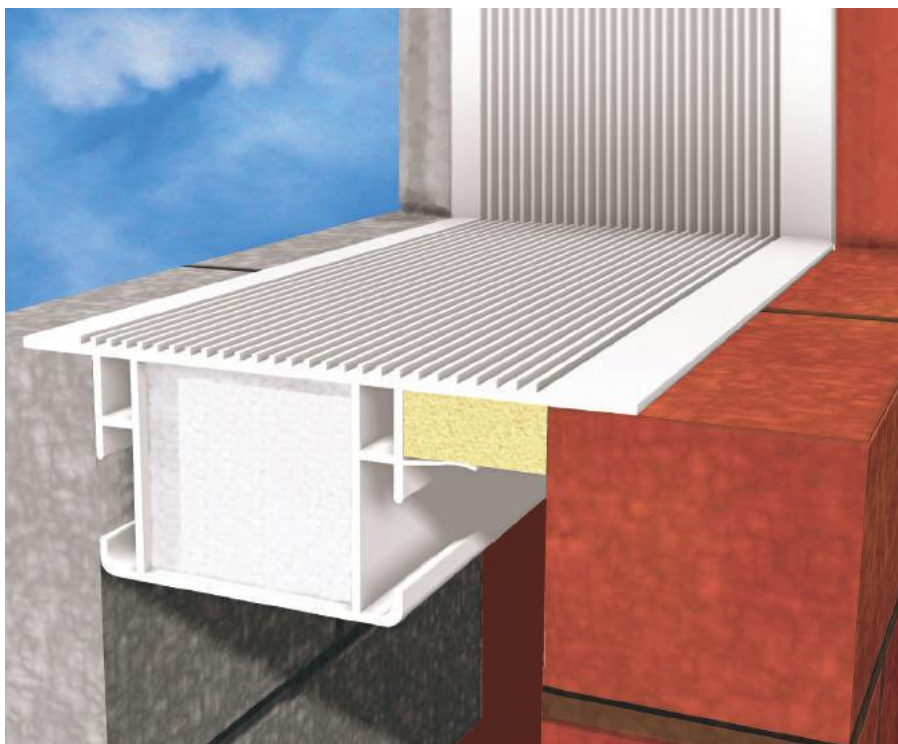

Our comprehensive **Specification Guide** includes dimensions and examples of use, along with detailed information on the rest of Eurocell's product offering.

For more information call our customer services team **0800 988 3074** or download from our website today at eurocell.co.uk/ebpspecguide

WHICH PRODUCT IS RIGHT FOR YOU?

CAVALOK UNIVERSAL CAVITY CLOSER

- For cavity sizes 50-100mm
- Use for new build projects
- Cavity closer is assembled into a window template
- Ensures window manufacturer can produce to correct sizes without repeated surveying - saving time and money by reducing rework or snagging
- Easy to install, use with standard plastic ties to fix into coursework as you build

CAVALOK BIG BLOK CAVITY CLOSER

- For cavity sizes 125-300mm
- Use for new build projects
- Cavity closer is assembled into a window template
- Super-insulating, specially designed to meet the Code for Sustainable Homes
- Easy to install, use with standard plastic ties to fix into coursework as you build

*MTO - Max 150mm from stock.

FLAT ROOF WINDOWS

The ideal solution for providing natural daylight

The benefits of natural illumination of buildings are unquestionable but in those with flat roofs it is not always possible to install sufficient standard vertical windows. A source of natural light should be available in any living space to make its occupants feel comfortable. The ideal solution for providing light is the installation of specially designed products for flat roofs.

Conditions apply

FLAT ROOF WINDOWS

Fakro flat roof window

- The Fakro type G product range includes flat roof windows which are non-opening (DXG), manually opening (DMG) or electrically operated (DEG). Fakro flat roof products bring the very highest standard of natural light to interiors. They also provide ventilation and offer exceptional functionality. In short, they can transform any room under a flat roof.
- The new range of technologically advanced G windows give smart aesthetics and provide an alternative solution for bringing natural daylight into rooms below a flat roof.
- Integral upstand for quick and easy installation.
- P2 safety glazing
- 10 year warranty

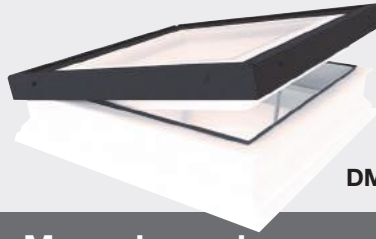

DEG

Electric z-wave control

FRENCH DOORS

Stylish versatility

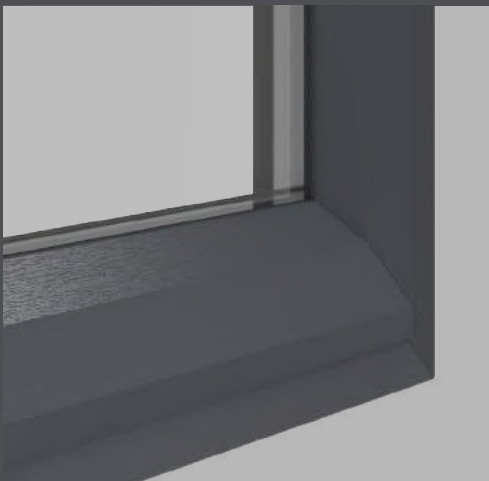

Flexible and sophisticated, Lifestyle French doors are available in a range of sizes up to 2 metres wide, providing an impressive entrance to your garden. A tasteful choice of colours allows your doors to complement your home or conservatory. Whether you are looking for classic White or elegant Cream, or if you prefer the natural appearance of Rosewood or Golden Oak, we have a style that's right for you.

Individual design

A choice of frame styles – Chamfered or Ovolo and a choice of opening options mean you can tailor the finish of your French doors to your individual taste. Inward opening allows you to make the most of your patio space or you can maximise your indoor areas with an outward opening mechanism.

IN STOCK AT YOUR LOCAL BRANCH

DETERS THE MOST DETERMINED ATTACK!

It's a fact that more insurance companies are now specifying that high performance locks such as the Schlosser Anti-Snap Cylinder are fitted before paying out claims. Just look at the great built-in security features opposite:

1 SNAP-OFF FRONT SECTION

If attacked, the cylinder will break off, giving the intruder less of the cylinder to grip.

2 HARDENED GRIP DEFLECTORS

Make gripping the rest of the cylinder difficult.

3 HARDENED REINFORCED BAR

This is designed not to snap, but to flex in a way that will defeat the majority of intruders.

REPLACEMENT CYLINDER LOCKS

For budget-conscious customers, there is the Euro Profile Cylinder. Available with single cylinder, double cylinder and turn cylinder

- 1 6-pin Euro profile cylinder
- 2 Quick and easy replacement for existing cylinder
- 3 Tested to BS EN 1303:2005
- 4 Available in polished brass and nickel
